**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

After using AT&T and then Comcast for many years and a lot of problems with the service, using a local competitive provider was a refreshing experience. Most importantly it is reliable, as we work quite a bit from our home we need a stable service. The single time we had an internet access problem, our local provider solved the problem within hours. (Comcast was working on our last problem for more than 2 months and did not fix it.)

In our eyes, maintaining competition by the local broadband providers is also important to strengthen the local community through enabling small business being truly competitive with the giants.
